

Sonoran Desert Birds

January 11, 12 & 13, 2013
Friday, Saturday and Sunday from 10am to 4pm

Linda Feltner, Instructor

Materials List

Spiral bound pad or sketch book 11x14", 14x18" or larger

Graphite Pencils (H, #2B and #4B)

Felt-tip pens, such as Pigma Micron pens. Size: Fine Point (005) and medium point (03). We will primarily use the finest points.

It is acceptable if you already have a set of technical pens, such as Rapidograph or Staedtler MarsMatic, or other inexpensive/disposable technical ink pens. Provide proper ink for technical pens, such as a waterproof drawing ink for paper and film (Koh-i-noor 3080-F Universal ink, "Black-India") or equivalent. If a student already has these types of pens, it will not be necessary to purchase the hard fiber Microns.

Erasers, kneaded and white plastic

Ruler with small, precise markings

Optional:

- Digital Camera
- Bristol, smooth (plate finish), two-ply, such as Strathmore 300 or 400 series.
- Color pencils or Watercolors (plus the appropriate paper) as per your preference. Our primary goal is to draw, but to add color notations will be a benefit. Bring what you are comfortable with.
- Tracing Paper (such as Canson Calque Tracing, 25lb., or equivalent fine-grain and high quality tracing paper)
