

ARIZONA-SONORA DESERT MUSEUM PLANT CARE INFORMATION

Select Blue Catmint *Nepeta faassenii*

DESCRIPTION: 'Select Blue' Catmint is a fantastic xeric perennial with dramatic lavender-blue flowers and handsome gray-green foliage. A recurrent bloomer, the first flush of flowers comes in late spring, and again later in summer. A long-lived, easily grown perennial, this is an excellent plant for beginners. Great for attracting bees and butterflies.

RECOMMENDED USE: Ground cover, border, patio container, hanging pot.

CULTURE:

Hardiness: 18°F.

Sun tolerance: Full sun to light shade

Watering and feeding: Medium

Soil requirements: Soil which drains.

Pruning: Can be cut to the ground as needed.
