ARIZONA-SONORA DESERT MUSEUM PLANT CARE INFORMATION

Coastal Sand Verbena *Abronia maritima*

DESCRIPTION: Evergreen mat-forming groundcover, spreading to 4'. Beautiful semi-succulent with magenta flowers – spring through summer. Native to coastal Sonora and Baja California. New addition to our nursery – currently testing this plant on grounds/nursery. Pollinators include bees and butterflies.

RECOMMENDED USE: May do well in hanging pot or as groundcover

CULTURE:

Hardiness: proven here to low 20's

Sun tolerance: Morning sun to light shade

Watering and feeding: keep moist

Soil requirements: very well drained soil

Pruning: as needed
