## ARIZONA-SONORA DESERT MUSEUM PLANT CARE INFORMATION

### Winter Blaze™ Emu Bush *Eremophila glabra* ssp. *carnosa*

**DESCRIPTION:** Winter Blaze™ is an evergreen shrub with glossy foliage. It produces tubular red flowers on new growth through most of the year. It is tough as nails, with a petite growth habit (3'-4' tall and 4'-5' wide). It handles full sun and reflected heat beautifully. Hummingbirds love it too. This is a native of western Australia.

**RECOMMENDED USE:** Good as an accent or as a low screen or barrier.

#### CULTURE:

**Hardiness:** 20°F.

**Sun tolerance:** Full sun to light shade.

**Watering and feeding:** Low water use once established. Feeding not necessary.

**Soil requirements:** Any soil will do.

**Pruning:** Any time as needed.
